

Kodak ImageStation 440CF**N020-9705****1 Day****Tuition \$730**

This course provides the attendee with the knowledge to run the IS440CF, visualize images, and analyze the results. The training is hands-on, including some basic theory.

Prerequisites

Labs that have recently had the instrument installed and need more training should attend this course. Customers should discuss their training needs with a PerkinElmer® LAS specialist before attending this course. An additional day for advanced software training is available upon request. Please contact your PerkinElmer LAS specialist.

Lectures and Labs

- Introductory presentations:
 - Basic terminology
- Kodak IS440CF Digital Imaging overview
- IS440CF features
- How to capture a good image
- Hands-on (all trainees will participate, everyone sets up the instrument and runs samples)
- All technologies are covered (Luminescence, Fluorescence, and Transmission/Absorbance)
- Questionnaires

Please visit www.perkinelmer.com/service for registration options and cancellation/refund policies.
