

MultiPROBE II**N020-9651****3.5 Days****Tuition \$1975**

This course presents an overview of the WinPREP® software. In-depth instruction focuses on optimizing liquid-handling performance, assay programming, using advanced options, and basic instrument maintenance. A fourth day includes instruction on optional equipment that can be incorporated onto the MultiPROBE® II platform.

Lectures and Labs

- WinPREP procedure templates
- Single liquid transfers
- Reagenet dispensing
- Multiple liquids
- Panel
- Dilutions
- Mapping
- Labware definition
- Default defining new labware
- Importing user supplied files
- User messages, program queries
- Performance file library
- Default performance file parameters
- Modifying performance file parameters
- Creating new performance files
- Database reports
- Utilities
- Calibration
- Tip Align
- User diagnostics
- Preventative maintenance
- SPE option
- Bar code option
- Shaker
