

Trust your PerkinElmer engineer to maintain all of your LC and GC instruments – regardless of manufacturer

Rely on your local service engineer. Did you know that your local PerkinElmer service engineer is capable of maintaining all of your LC and GC instruments that are manufactured by PerkinElmer and other suppliers such as Agilent, Waters and Shimadzu? How can we deliver on this promise? We have made major investments designed to provide you with the following:

- **Rapid response** – a proven dispatch process gets your engineer to you quickly
- **Comprehensive and robust documentation** – meets your rigid quality demands
- **Skilled engineers** – fix it right the first time and increase productivity
- **Parts availability** – no long wait times due to delivery issues
- **Proven PM protocols and processes** – repair normal wear and tear before it leads to down time

Instrument Maintenance Capabilities Include:

Agilent Technologies, Inc.	Waters Corporation
GC 5890/6890	LC 2690/2790
GC 6850	LC/MS MICROMASS ZQ's, Quattro
GC/MS 5971A/5972/5973	
LC 1100 systems	

World-class service for all your instruments

You like what we do for you today. Rely on us to deliver the same world-class service you receive on your PerkinElmer instruments to all of your LC and GC units regardless of manufacturer.

We have made it easy and simple to change. We simply add additional LC and GC instruments from other manufacturers to your existing billable or service plans. While we are performing your service we can also do

your qualification using proven protocols or protocols tailored to your specific compliance needs.

We are confident of our service promise. Trust PerkinElmer to maintain all of your liquid and gas chromatography instruments. To learn more about our professional services please contact your local PerkinElmer Contract Coordinator, your local Service Engineer, phone **800-762-4000**, or visit our website at www.perkinelmer.com/onesource.
